

# Compliance Overview

Our steadfast commitment to security, reliability, and operational excellence is underscored by independent audits and industry certifications to meet the compliance requirements of our customers.

We regularly review evolving frameworks and undergo third-party audits to ensure our data centers meet physical security and environmental standards for our customers' regulatory and governance reporting purposes. These fundamental certifications and frameworks demonstrate that Centersquare and our data centers meet rigorous operational standards. Current certifications can be downloaded by our customers from the Centersquare Portal.
