

Supporting next generation workloads

Meeting your needs today and into the future.

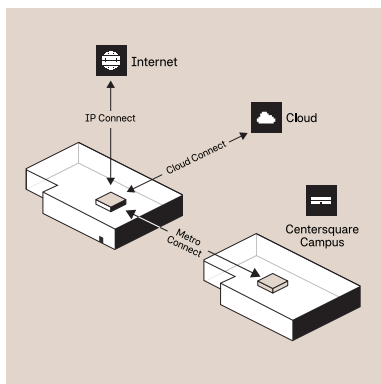

CENTER SQUARE

At Centersquare, we understand the critical importance of having the right technology to support next-generation workloads to stay one step ahead of your competition. Our innovative on-demand solutions are designed to give you the scalability that your business requires. As your operations grow and evolve, our infrastructure will flex alongside you to adapt to increasing demands without compromising performance or reliability.

Our robust ecosystem offers a comprehensive suite of easily accessible network, storage, and compute solutions. This holistic approach allows us to cater to a wide range of requirements, from data-intensive applications and complex computational tasks to extensive storage needs. Just by being a Centersquare colocation customer, you gain access to a world of dynamic and resilient services that can handle the most demanding workloads.

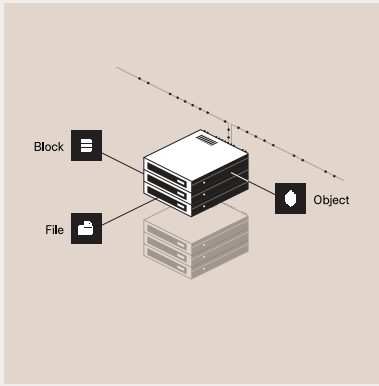

As your business needs change, our infrastructure can scale up effortlessly, providing you with the resources you need exactly when you need them. This flexibility not only optimizes your operational efficiency but also supports cost-effectiveness by allowing you add services easily as your business requires.

On-demand solutions-at-a-glance

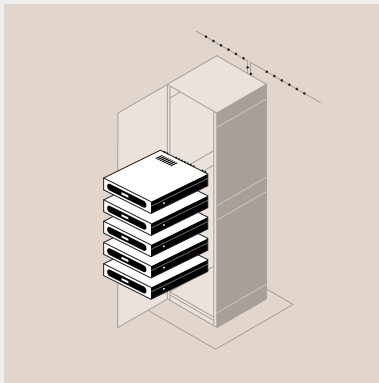

Network

Our ecosystem of network solutions provides fast, reliable, and secure connectivity. In today's interconnected world, a robust network is essential for seamless communication and data transfer. Our advanced network infrastructure ensures low latency and high throughput, enabling you to maintain optimal performance across all your operations. Scale your digital business with physical and virtual connectivity options within our vast ecosystem or enable your hybrid IT strategy with Centersquare powered network solutions including interconnection for secure connectivity within the metro, redundant internet and direct access to public cloud providers.

Storage

Data is the lifeblood of modern businesses, and our storage solutions offered through our ecosystem are built to protect and manage your valuable information. Powered by Zadara, you can store and retrieve your data with ease, knowing that it is secure and readily accessible whenever you need it. All your storage needs can be met in a single service with any data type, any protocol, and any location.

Compute

Designed to deliver high performance and reliability, our compute offerings ensure your applications run smoothly and efficiently. Whether you're solving for AI, machine learning, big data analytics, or other resource-intensive tasks, our powerful compute infrastructure can handle it all. We leverage the latest technologies to provide you with unparalleled processing power, ensuring your workloads are processed quickly and accurately.

At Centersquare, we're committed to providing you with the technology backbone that drives your success. Our on-demand solutions are not just about meeting your current needs but focused on helping you build for tomorrow. We continually innovate and upgrade our infrastructure, as well as bring strategic partners into our ecosystem to ensure you have access to the latest advancements in technology.

Whatever you need,
we are here to help.

If you need any assistance with pricing or scheduling a tour, please email us at or call us. We look forward to working with you.
